

National Conference on Contemporary Cast Iron Art & Practices Call for Workshops

Sloss Furnaces National Historic Landmark
Birmingham, Alabama
April 2nd-5th, 2025

The 2025 National Conference on Contemporary Cast Iron Art and Practices (NCCCIAP) would like to invite proposals for artist-led workshops. Our 2025 theme is *Skimming the Surface*, and we encourage you to be creative in your interpretation and consideration of the theme in your proposal. That said, workshops that do not directly address the theme but aim to teach participants in other processes, skills, and concepts are most welcome.

CALL FOR WORKSHOPS

The Steering Committee for the National Conference on Contemporary Cast Iron Art and Practices would like to invite all artists and professionals to submit proposals for workshops for the 2025 conference.

Workshops are offered to allow production and instruction in processes that may be unavailable or unfamiliar to attendees. Proposals for workshops must include an objective and/or overall goal of the workshop. They should also specify necessary tools and equipment, material cost per workshop attendee, and the maximum number of workshop attendees. Workshops will be held during the week of the conference, and all projects and processes should be completable in that timeframe.

We encourage creativity and personalization and the inclusion of workshops teaching skills beyond traditional metal casting.

While creating proposals, keep in mind the theme of the conference is
Skimming the Surface

SUBMISSIONS DUE: October 31, 2024

Notification of acceptance by Nov. 18, 2024

Please submit proposals via the Google form or to Workshops4NCCCIAP@gmail.com
